

Install VSCode

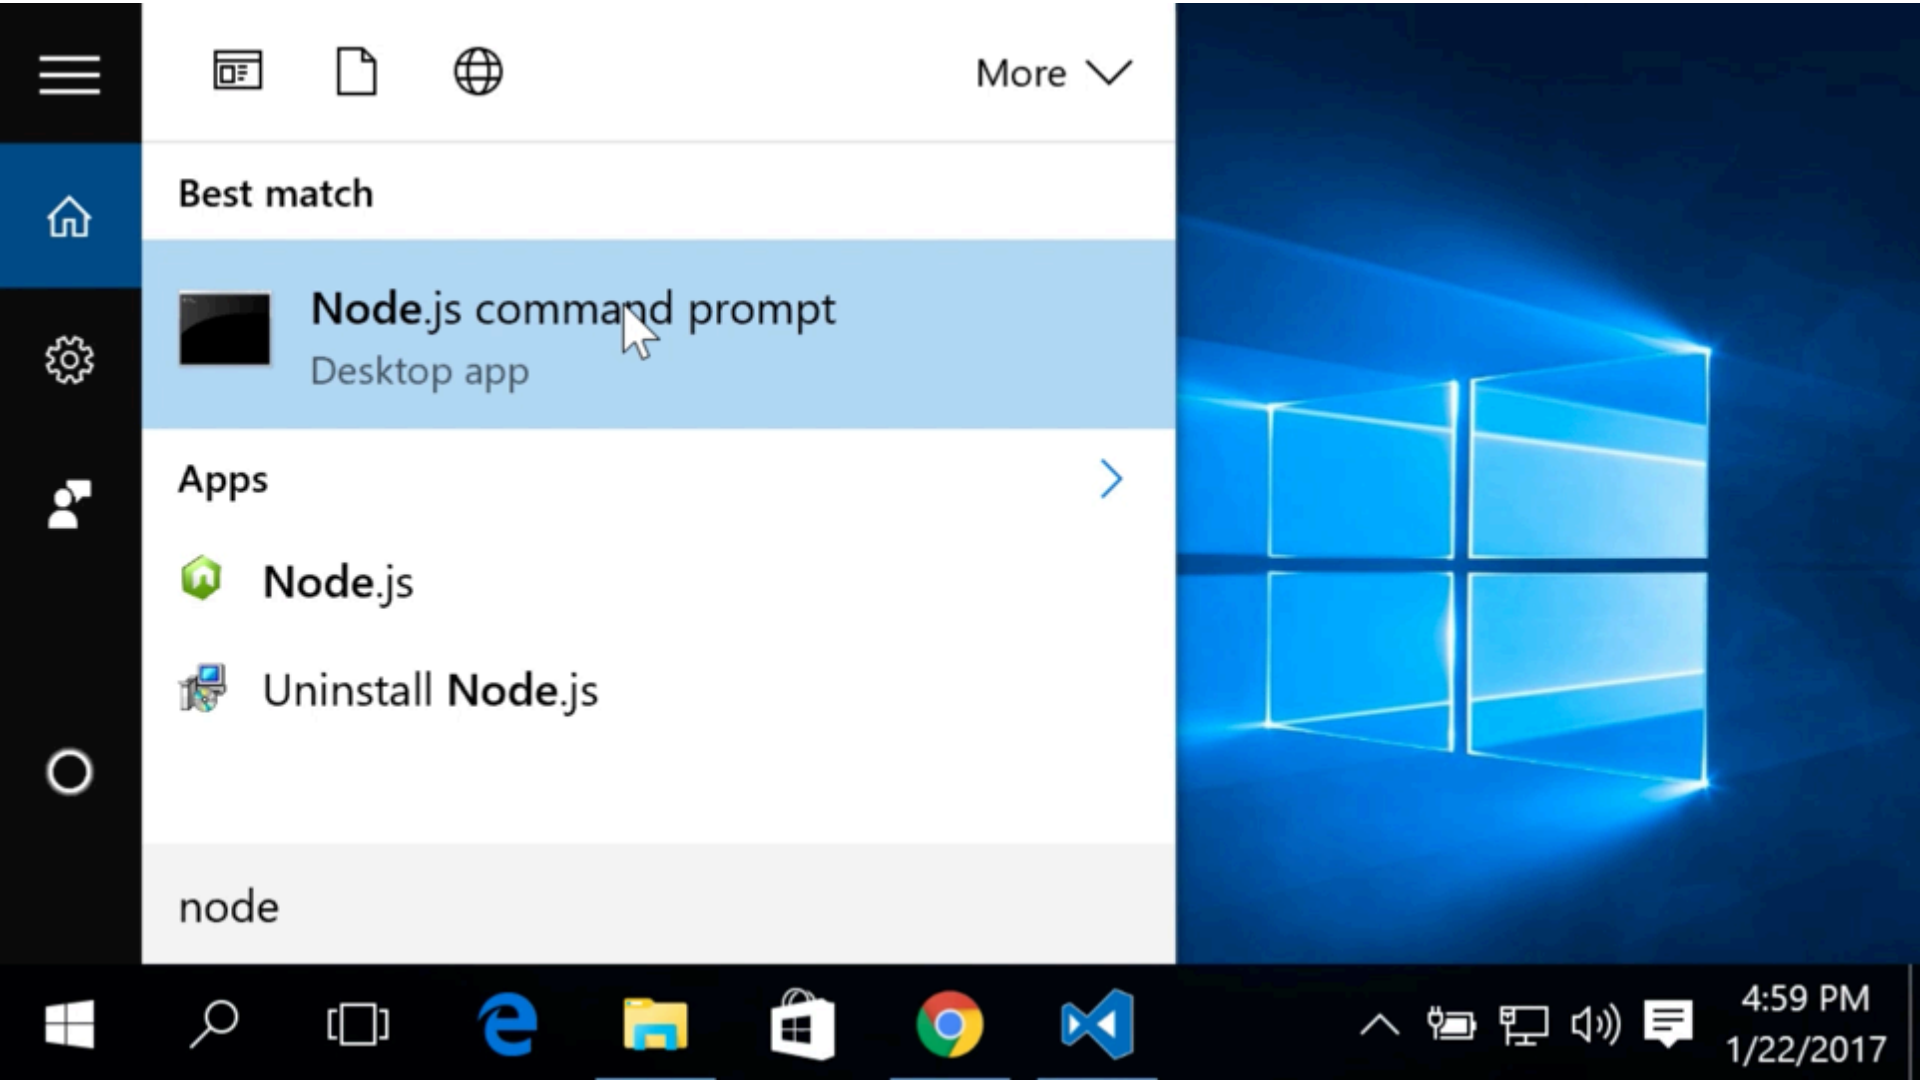

<https://code.visualstudio.com>

Install NodeJS

Select Recommended Version

<https://nodejs.org>

Open Node Terminal

Install eslint

```
npm install -g eslint
```

```
C:\Users\learner>npm install -g eslint_
```

Install `eslint-plugin-html`

```
npm install -g eslint-plugin-html
```

```
C:\Users\learner>npm install -g eslint-plugin-html
```

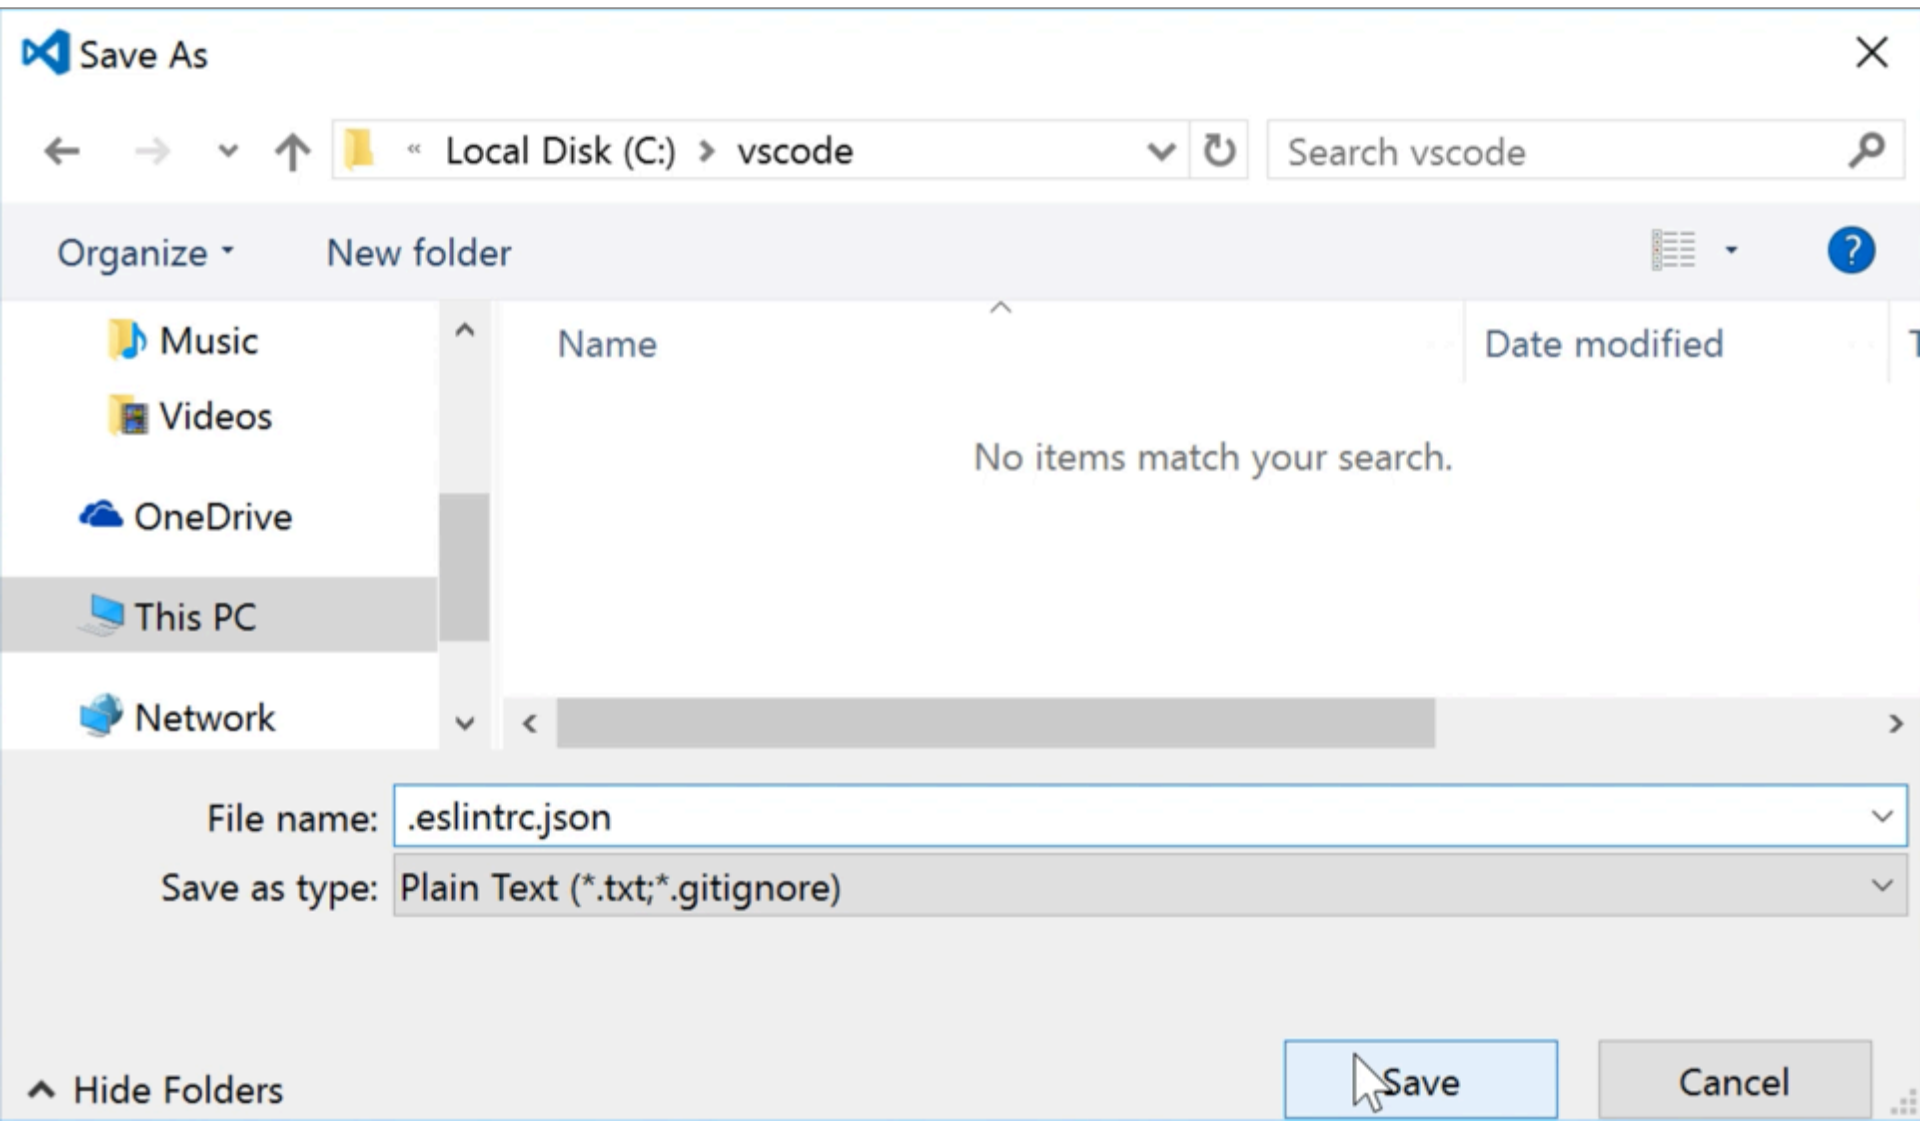

Install `eslint-plugin-import`

```
npm install -g eslint-plugin-import
```

```
C:\Users\learner>npm install -g eslint-plugin-import_
```

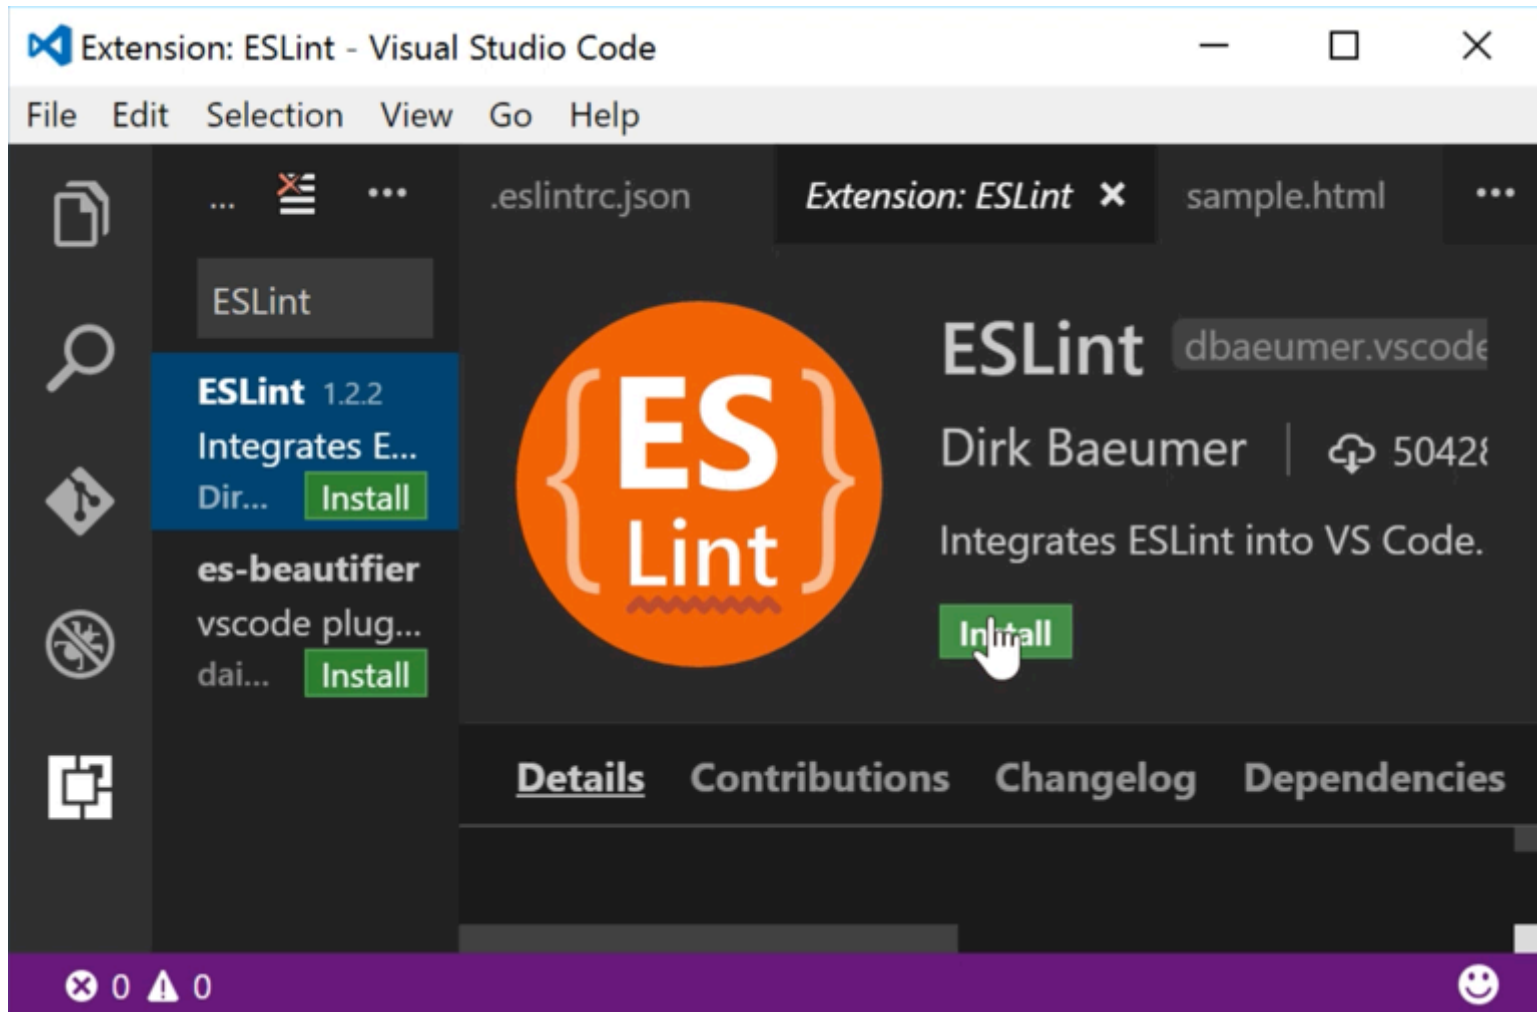

Create `.eslintrc.json`

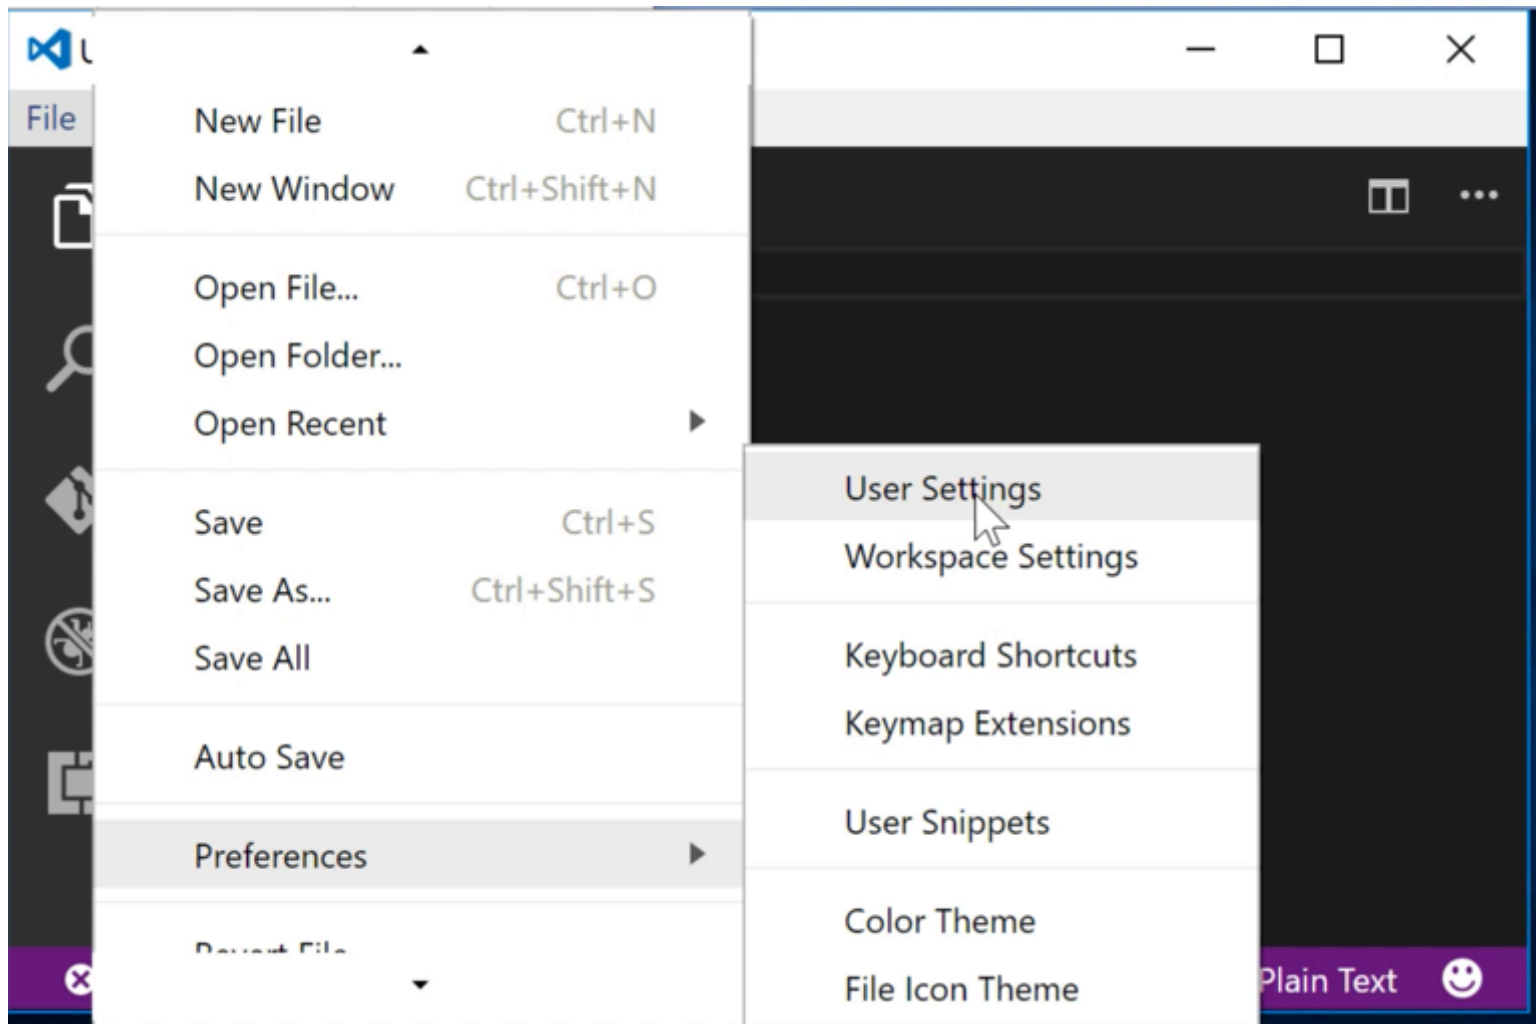

Create file: `.eslintrc.json`

```
{
  "env": {
    "browser": true,
    "node": true
  },
  "plugins": [
    "import",
    "html"
  ],
  "rules": {
    "indent": [
      "error",
      4
    ],
    "linebreak-style": [
      "error",
      "windows"
    ],
    "quotes": [
      "error",
      "single"
    ],
    "semi": [
      "error",
      "always"
    ],
    "no-console": "off"
  },
  "globals": {
    "firebase": true
  },
  "extends": "eslint:recommended",
  "plugin": [ "html" ]
}
```

Install ESLint

Reference configuration file in user settings

Add configuration to VSCode

code -> preferences -> user settings

```
// add configuration to vscode
```

```
// file -> preferences -> user settings
```

```
"eslint.options": { "configFile": "c:\\vscode\\.eslintrc.json" },
```

```
"eslint.validate": [
```

```
  "javascript", "html"
```

```
],
```

```
"editor.tabSize": 4,
```

```
"editor.insertSpaces": true,
```

```
"editor.detectIndentation": false,
```

```
"editor.fontSize": 18
```
